General Instructions:

- (i) Please read the instructions carefully.
- (ii) This question paper consists of 21 questions in two Sections. Section A & Section B.
- (iii) Section A has objective type questions whereas Section B contains subjective type questions.
- (iv) Out of the given (5 + 16 =) 21 questions, a candidate has to answer (5 + 10 =) 15 questions in the allotted (maximum) time of 2 hours.
- (v) All questions of a particular section must be attempted in the correct order.
- (vi) Section A: Objective Type Questions (24 marks):
 - (i) This section has 05 questions.
 - (ii) Marks allotted are mentioned against each question/part.
 - (iii) There is no negative marking.
 - (iv) Do as per the instructions given.
- (vii) Section B: Subjective Type Questions (26 marks):
 - (i) This section has 16 questions.
 - (ii) A candidate has to do 10 questions.
 - (iii) Do as per the instructions given.
 - (iv) Marks allotted are mentioned against each question/part.

Section - A (Objective Type Questions)

- 1. Answer any 4 out of the given 6 questions on Employability Skills. $4 \times 1 = 4$
 - (I) Narcissistic personality disorder is characterized by which of the following condition(s):
 - i. People have an inflated sense of their own importance.
 - ii. A deep need for excessive attention.
 - iii. Admiration and lack of empathy.
 - iv. Introvert
 - (a) Only i

- (b) Both i and ii
- (c) i, ii and iii

(d) i, ii, iii and iv

1

(II) "S	s" in	acronym SMART in Goal sett	ing s	stands for :	l
(a	1) 5	Strong	(b)	Segment	
(0) 5	Specific	(d)	Special	
b	eing	_ is an economic process, w tunity is created, refined, de exposed to uncertainty, t ation of resources.	here	an idea is generated or an ped and implemented, while	ı
(1	a)]	Entrepreneurs			
()	b)]	Entrepreneurship developmen	nt		
(c)]	Entrepreneurship			
(d)	Cluster intervention			
		spreadsheet software, an an ner is known as :	rrang		1
((a)	Worksheets	(b)	Workbooks	
((c)	Rows	(d)	Columns	
(V)	Whic	ch of the following is not an ex	ampl	o or a opromiser	1
	(a)	Microsoft Excel	(b)	LibreOffice Calc	
	(c)	OpenOffice Impress	(d)	Google Sheets	
(VI)	man	ch entrepreneur, out of to sufacturer, who identifies the fucts or services to serve them	nee	ds of customers and creates	1
	(a)	Service entrepreneur			
	(b)	Industrial entrepreneur			
	(c)	Agricultural entrepreneur			
	(d)	Technical entrepreneur			
Angr	ver a	any 5 out of the given 6 question	ons.	5 × 1 =	5
(I)	A t	raining set is a set of	_ dat	a in which the outcomes are	,
		ady known.			1
	(a)	current	(b)		
	(c)	historical	(d)		
(II)	exp	lain the audience whats happ	of thi penir	ree key elements, that help to ag in the data in an engaging	1
	and	l entertaining manner.			•
	(a)	Data Analysis	(b)		
	(c)	Data Storytelling	(d)	Data Narrative	

(III) Match the following step of AI project given in column 'A' with its exact sequence given in column 'B'. 1 Column 'A' Column 'B' Evaluation & refinements 1. A. Second step 2. Problem definition B. Fifth step 3. Data gathering C. First step 4. Deployment D. Fourth step 5. AI model construction E. Sixth step 1 2 3 (a) D E A B C (b) C B A E D (c) B C A E D (d) E D B C A (IV) In AI development which of the following framework is used? 1 (a) Python (b) TensorFlow Visual Basic (d) C++All the algorithms in machine learning rely on minimizing or maximizing a function, called as 1 (a) Objective function (b) Focal Loss Loss function Gradient Descent (d) (VI) Which of the following is incorrect? The testing phase is essentially an iterative process. 1 The first fundamental step when starting an AI initiative is (b) scoping. In scoping phase, it's crucial to precisely define the strategic (c) business objectives and desired outcomes of the project, Test data should include all relevant subsets of training data. (d) Answer any 5 out of the given 6 questions. $5 \times 1 = 5$ When visuals are applied to data, they can _ the audience to the insights that they wouldn't perceive without the charts or graphs. 1 (a) engage explain (b) (c) enlighten change (d) (II) It is believed that if there is a _____ in the data, then AI development techniques may be employed. 1 (a) pattern program (c) language (d) logic

3.

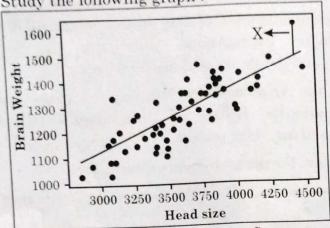

(III)		resources and steps, and defin	mes pecta ne the	of the project, align all the tions, anticipate the key success metrics.	1		
		critical to the success of any d	Retu lata p	arn on Investment (ROI) is project.			
	Sele	ect the appropriate option for th	ne sta	tements given above :			
	(a)	(a) Both (A) and (R) are true and (R) is the correct explanation of (A).					
	(b)	Both (A) and (R) are true and of (A).	d (R)	is not the correct explanation			
	(c)	(A) is true, but (R) is false.					
	(d)	(A) is false, but (R) is true.					
(IV) Which of the following shows the audience where to look and what not to miss and also keeps the audience engaged?				ence where to look and what engaged?	1		
	(a)	data	(b)	narrative			
	(c)	charts	(d)	story			
(V) Once the relevant projects have been selected and properly scope which of the following phase will be the next step of the machin learning lifecycle?				the next step of the machine	1		
	(a)	Problem Scoping	(b)	Deployment			
	(c)	Design	(d)	Testing			
(VI)	Whi	ich of the following is the first	stage	of an AI Model Life Cycle ?	1		
	(a)	Build	(b)	Scoping			
	(c)	Design	(d)	Testing			
		- Cul in Connection	ne	5×1=	5		
	wer a	any 5 out of the given 6 question	nrof				
(I) Which of the following is the most preferred language for building an AI model?							
	(a)	Python	(b)	VB			
	(c)	Java	(d)	C++			

4.

(II) Study the following graph:

What does the line in the above figure represent?

Actual values (a)

Set of predicted values (b)

1

1

1

- It represents the error
- Values at Y aixs (d)

(III) First four steps of writing Python code to find out RMSE values of the model are given here. Arrange them in proper order -

- Splitting the data into training and test. 1.
- Reading the data. 2.
- Fitting simple linear regression to the training set. 3.
- Import required libraries 4.
- 2 4 1 3(a)

4 - 3 - 2 - 1(b)

1 - 2 - 3 - 4(c)

4 - 2 - 1 - 3(d)

(IV) Which of the following is NOT True for Testing?

- The volume of test data should be very small.
- Data validation is important. (b)
- Your testing team should test the AI and ML algorithms (c) keeping model validation.
- Your team must create test suites that help you validate your ML models.

Data storytelling is a _____ approach for communicating insights drawn from data.

iterative (a)

367

procedural (b)

sequential (c)

structured (d)

(VI) Which of the following is NOT true for Train-Test Split Evaluation? The procedure involves taking a dataset and dividing it into two

- subsets. The train-test procedure is appropriate when there is a larger (b)
- The objective is to estimate the performance of the user. (c)
- It can be used for classification or regression problems. (d)

Page 6 of 12

5.	Answ	er a	my 5 out of the given 6	questions	5×1=	5			
	(1)	Stor	les create		t transport the audience to				
			her space and time.			1			
		(a)	visualizations	(b)	engaging				
		(c)	testing	(d)	necessary				
	(II)	Whi	ch of the following is in	correct?		1			
		1.	A capstone project is	a project whe	ere students must research a understanding of the subject				
		ii.	The initial part of the capstone project.	e project of ac	ademic program is known as				
		iii.	The final project of a learning from the pro	n academic program is called	rogram, integrating all of the lapstone project.				
			(a) i and iii only		ii and iii only				
			(c) ii only		i, ii and iii				
	(III)	Whi	ich of the following is	an example o	of a development tool used in				
		bull	iding an Al model?			1			
		(a)	C++	(b)	Anaconda				
	(TV)	(c)	Linux	(d)	Scratch				
	(IV) Identify the correct statements from the following:								
		1.	i. Data modeling focuses on developing modes that are either descriptive or predictive.						
		ii.	A predictive model outcomes.	tries to yi	eld yes/no, or stop/go type				
		iii.	The data scientist modelling.	will use a	training set for descriptive				
		iv.	Data modelling focus	ses on testing	the project.				
			(a) i, ii, and iii	(b)	ii, iii and iv				
			(c) i and ii	(d)	i and iv				
	(V)	app	is a design me	thodology thems.	at provides a solution-based	1			
		(a)	Classification	(b)	Design Thinking				
•		(c)	Recommendation	(d)	Computational				
	(V1)	Wł	nich of the following is	a key element	of a data story?	1			
		(a)		(b)	visuals				
		(c)	engage	(d)	information

Section - B (Subjective Type Questions)

Answer any 3 out of the given 5 questions on Employability Skills. Answer each question in 20-30 words: $3 \times 2 = 6$

6.	With reference to 'Five Factor Model', mention any four parameters that describe an individual's personality.	2
7.	Define any two of the following personality disorders: (a) Avoidant	2
	(b) Dependent (c) Histrionic	
8.	Differentiate between a row and a cell of a spreadsheet.	2
9.	Write any four qualities that motivate an entrepreneur.	2
10.	Briefly define the term competency. Mention any two Common Entrepreneurial Competencies.	2
	Answer any 4 out of the given 6 questions in 20-30 words each. $4 \times 2 =$	8
11.	Mention the names of any four stages of Design Thinking.	2
12.	Explain the term Time series decomposition.	2
13.	Give two points of difference between Cross-Validation and Train-Test Split.	2

14. Selecting the right analytical approach depends on the questions being asked.

2

- In the light of the above given statement, which type of questions can be asked for (A) Classification approach (B) Descriptive approach
- 15. Name the main stages of AI project Life cycle.

2

16. Give two reasons why storytelling is so powerful?

2

Answer any 3 out of the given 5 questions in 50-80 words each.

 $3 \times 4 = 12$

17. Give steps to break down a problem into smaller units before coding.

4

18. The following is the diagram depicting the Foundational methodology for data science.

A

The diagram is marked with A, B, C, D. Identify these four steps and briefly explain the significance of steps marked as 'A' and 'B'.

19. Explain AI project cycle and project scoping in detail.

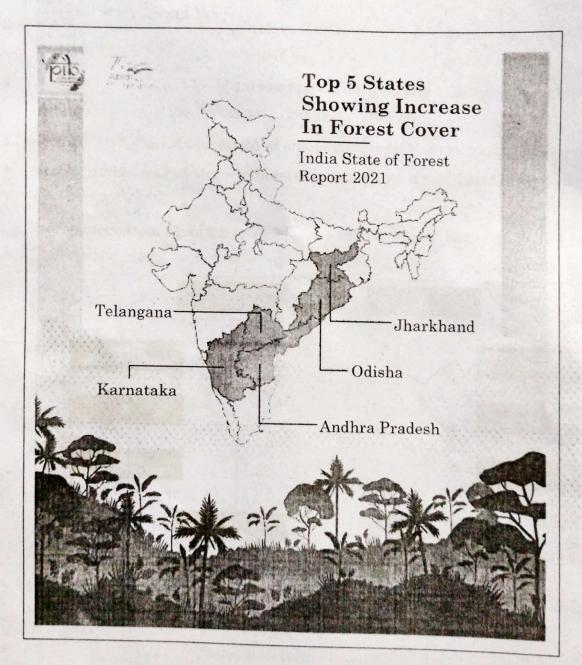

4

1

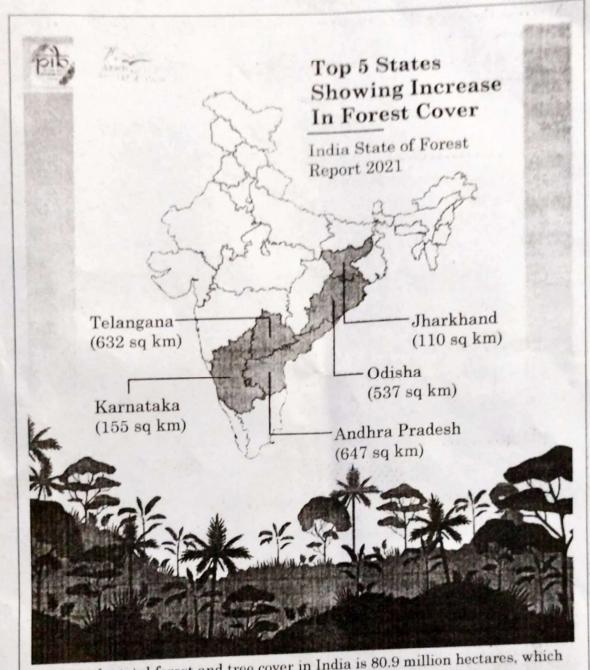

- 20. (a) Mention the steps that can assist in finding compelling stories in the data sets.
 - (b) Which of following (Option − A or Option − B) is a better data story? Give reasons.

Option - A

In 2021, the total forest and tree cover in India is 80.9 million hectares, which is 24.62% of the geographical area of the country.

21. Briefly explain the purpose of Data story telling. Also discuss the significance of each of the key elements in the process of Data story telling.

243
